

2017 STREET SEAL COATING BEGINS NEXT WEEK:

The city of Dalhart has announced that this year's seal coating project will begin June 5, 2017 weather permitting.

The contractor for this year is G and G Construction from Dumas . Beginning June 5st thru June 9 2017, all residents are asked to not park or leave their vehicles unattended for long periods of time along the specified street locations listed below. This will enable the crews to sweep off the dirt and debris in advance of the seal coat contractor.

As a last resort , all vehicles not moved will be moved out of the way. Residents are also asked to not allow their lawns sprinklers or sprinkler systems to spray water on the streets. The project is expected to take up to 4 or 5 days to complete, depending on the weather delays caused by parked vehicles, ect.

The streets to be seal coated are listed below, they are not being done in any specific order:
